

## **REMARKS**

Claims 1-70 have been cancelled. New claim 71 has been added.  
Therefore, claim 71 is presented for examination.

Applicants respectfully submit that newly added claim 71 is not obvious over the combination of references cited. In particular, none of the references address image translation in detail. Therefore, none of the references teach or suggest "generating said version of the digital photographic image by decompressing the digital photographic image to generate a bitmap in a color scheme that was used to generate the digital photographic image, converting the bitmap of the digital photographic image to a standard intermediate format, and mapping the standard intermediate format of the digital photographic image to the selected image format," as recited in newly added claim 71.

If any additional fee is required, please charge Deposit Account No. 02-2666.

Respectfully submitted,  
BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN LLP
